

# Food for Thought

Weekend Backpack Program  
Providing your family with food every weekend

**Food for Thought**  
AN OUTREACH OF SECOR

Our partner schools provide us with a headcount representing the participating students. SECOR organizes and packs bags of healthy, nutritious food, then delivers them to the schools during the week. The schools hand them out to your child before they leave for the weekend.

*No child should ever go hungry. Let's work together to end hunger in our schools!*

*Non-perishable food for a family of 4.*

## YOU ARE NOT ALONE IN THIS FIGHT

- Since COVID-19, 40% of households have reported a drop in annual income.
- Parents reported that they are cutting back roughly 25% on their child's nutrition.
- 50% of parents stated that they worry about covering basic expenses.

## HOW TO SIGN UP

1. Although SECORCares is providing the bag of food, we do not collect your personal data from the school/student.
2. Parents contact your student's classroom teacher for enrollment instructions.

*By enrolling in the 'Food for Thought' program, we will send a bag of food home with your student each week.*
